

SPEC CHEM SURFACE SHINE

A high gloss, non-yellowing acrylic polymer designed as an exterior cure and seal. Especially effective when applied over decorative concrete surfaces such as stained concrete, exposed aggregate, and stamped concrete. Primary features:

- Beautifies and protects decorative concrete.
- Minimizes efflorescence.
- Will not yellow under extreme UV exposure.
- Meets ASTM C-1315-95, Type 1.

21-10230 5-Gal. Pail

SPEC CHEM DECO SHINE

A methacrylate cure and seal developed for exterior decorative concrete surfaces. Deco Shine brings out the radiance and luster of stained concrete, exposed aggregate, and stamped concrete surfaces. Primary features:

- Provides a clear membrane for new or old concrete for improved durability.
- Seals concrete surfaces with an attractive glossy appearance.
- Will not yellow under ultraviolet exposure.
