

### **SPEC CHEM SPEC FILM RTU**

Spec Film is designed for use as an evaporation retardant and finishing aid on concrete flatwork of all types. Spec Film forms a thin film which prevents rapid moisture loss in hot and windy conditions. Primary features:

- Significantly reduces plastic shrinkage and cracking caused by evaporation.
- Reduces wind crusting and sponging, aiding the finishing process.
- VOC compliant.

21-10245 5-Gal Pail

### **SPEC CHEM SPEC ETCH**

A spray-applied chemical surface retarder engineered to expose underlying aggregate of freshly placed horizontal concrete. Does not alter natural color of aggregate or concrete. Primary features:

- Ready to use.
- Red dyed.
- VOC compliant.

21-10400 5-Gal Pail
