

FRESCO STAINS™

Fresco Stains™ are penetrating, reactive stains that create a chemical reaction within the concrete substrate. This reaction slightly etches the concrete surface to provide deeper and more permanent color.

- Water based formula containing reactive mineral compounds, contains no hydrochloric acid.
- Can be used vertically or horizontally on concrete, masonry, overlays, artificial rock displays, water features and themed finishes.
- 8 standard colors.

18-FP701	Fresco Plus, 1-Gal.
18-FS601	Amber Stain, 1-Gal.
18-FS602	Aspen Stain, 1-Gal.
