

Basket Weave Used Brick

The **Basket Weave** pattern is a nice alternative to the Running Bond and Herringbone texture stamp patterns.

The attractive alternating brick of the **Basket Weave** stamp is ideal for smaller patios and walkways. The stamp dimensions of 15 1/2" by 30 3/4" also make it a good and attractive option for driveway borders.

Make this texture pattern part of your future presentations. You'll be pleased with the results.

Stamp size is 15 1/2" x 30 3/4".
