

BRICKFORM® PRO-DYE™

BRICKFORM® Pro-Dye™ is a translucent dye, designed to penetrate and color any cementitious surface. Pro-Dye dries quickly and can be easily sprayed on floors and vertical surfaces. In most cases cleanup and sealing can be done in the same day. It is ideal for polished concrete and can be used as a base color for Blush-Tone Acid Stain to achieve dramatic results. Pro-Dye™ is designed for interior applications only.
