

Seamless Roman Slate

Stamp size is 48"x48".

Our **Seamless Roman Slate** texture skins produce a moderately aggressive and very attractive concrete texture. The natural slate texture is a great choice for luxury hotels, business lobbies, pool decks, and backyard patios. In addition to fresh concrete, the **Seamless Roman Slate** texture skins work well on decorative overlay materials. This completely random pattern can be further enhanced by saw cut joints on 3'x3' or 4'x4' squares, creating the look of large slabs of hand-placed slate.
